Five features of science fiction Stories:

① Highly Imaginative & futuristic.
→ science fiction stories are written in very imaginative society of the world in future. which may be true or not but these are common in science fiction story.

② Based on Technology.
→ This kind of story are basically based on the technology that will take a draustic change in the society in future. Sci-fi Includes The idea & assumption about the technology coming in future in the story.

③ Unbelievable & Unrealistic in present:
→ Science fiction story Basically tells about the future world & society which seems really impossible & unrealistic. As in the story 'Bellium' written by J.G. Barnalld We cannot imagine Such kind of situation of population will come or not but it seems unrealistic.

④ Based on scientific hypothesis
→ These stories may be based on scientific hypothesis in which stories may include Time travel, Teleportation, Mind control Telepathy, space travel & exploration. These are the Things that are only based on hypothesis.

⑤ Imaginative Impact on Scientiefic Advancement.
→ sci-fi talks about the Impact that the science or technology made in the society or in the world in future which leads the world towards the pick of advancement.

Hence, Science fiction stories are Imaginative, futuristic, Technology Based, Unrealistic & hypothetical.

→) The anwer is (b)

(b) Supports the conclusion by showing that those who have a vegeterian diet avoid eating something which can be bad for health – the animal fats which can cause heart diesease.

(a) Dies not support the conclusion, it mentions only a deficiency of vegeterian diet - the lack of cirtain vitamins – which might suggests that a vegeterian diet could be bad for health.

(c) doesnot support the conclusion because it mentions something which is beneficial to health, But which is absent from vegeterian diets.

MEMORANDUM

DATE: JULY, 21, 2021

TO : Manager, Nepal Telecom.

FROM : Gobinda Jamkatel, Senior Technician, NTC.

SUBJECT: Poor Service in Dillibazar.

     I am writing to inform you about the poor services in their Mobile phone since 2 weeks or more.

     Many clients arround this area have complained about our service in this area. Our Network Tower is not working arround this area between July 10 and till now due to some ~~technique~~ Technical problem. So, It should be maintained as soon as possible.

     This news may be dissappointed, but we are confident in our Nepal telecom team & its service. Hope this problem may be viewed & took action as soon as possible.

     We are very sorry to our costumer for this issue.

→ Simply communication is the Sharing of Information. It is the giving & recieving of the Information & messages from one person to another person, may be many persons to one person. It is bassically necessary for Exchange of ideas & information, Drafting of purposal & plan, execution of decisions etc.

• These are the different Communication Barriers discussed below:

① Language Barrier
- The language used by the sender may not be understood by the reciwer. Also, Two people communicating in same language But due to some jargons if another one could not understood, this may cause breakdown in communication. for example: A Industry Lead using terminology may not be understood by a interns.

② Emotional Barriers:
- The state of mind of the communicater can hinder the delivery of information. The mental State of the sender & reciever influences how the message is recieved, pereived & sent.

③ physical Barries:
- Geographical distances is also a Barrier. Distance between two end causes difficulties in communication. If sender & reciever is not in Good environment like noisy places then they couldn't have good communication.

④ Systematic Barriers:
In an organization, communication may be barred because they are no channels to communicate amongst themselves. for example, A Junior employee may not be able to meet/access company CEO because no measures have put in place to allow for that.

⑥ Taboos:

Communication may be hinder because some topics are not to open to discussion. Taboo topics may include religion, sexuality, sex, politics & disabilities.

Causes of Road accident in the highway of Nepal.

Terms of Reference
To investigate the causes of road accident in the highway of Nepal & to give needed conclusion & recomendations as per Raju katwal, Manager of NTO.

Procedure:
① An interview with the traffic police head Mr. Sarbendra khanal.
② A field servey of Almost 2 months in prithivi highway.

Findings:
① Interview with the traffic head Mr. Sarvendra khanal.

  ⓐ faults of drivers:
   - In many cases of road accident drivers drive vehicle after drinking or they sleeps while driving or they talks in mobile phones while driving.

  ⓑ Road Condition of Nepal:
   - Nepals roads are very dangerous, narrow & of low quality which causes road accidents.

② field servey of almost 2 months:
   - In some cases there is reason of less responsbility of drivers.

   - In some cases over driving speeds.

-lack of Signboards & less traffic boards.
- Road conditions
- Old vehicles.

CONCLUSIONS:

With the interview & field survey it is founded that drivers
are less responsible, Road condition of Nepal is also poor,
old vehicles, drunk drivers, Overspeeding, lack of Signboards
are the main reasons behind the increasing accident in the
highway of Nepal.

RECOMMENDATIONS:

① Drivers should be regularly checked whether they are drunk
   or not.
② ~~Most~~ Along distance Busy most have at least 2 drivers.
③ Road condition of Nepal should be increased,
④ Old vehicles should be removed.
⑤ traffic signs should be increased.

If you have any querries about these, please inform me.

'Burning chrome' is a science fiction story, written by William Gibson. The story tells the story of two hackers who hacks system for profit. The two main characters are Bobby Quinnel who specializes an software & Automatic jack who specilizes in hardware. The third character in the story is Rilela, a Girl with whom Bobby wants to hit a big. Automatic Jack aquires a piece of Russian hacking software that is very sofisticated & very hard to trace. The rest of the story unfolds with Bobby deciding to Break into the system of notorius & vicious criminal called chrome. Who handes many hamfers for organized crime & Automatic Jack reluctantly agreeing to help. The break-in is un marely successful, but nikki decides to leave the groupe & Ceo to the hollywood, to the grief of Quinne & Jack who have grown to love her. Hence, the story focuses on the convergence events surrounding night that Jack and Bobby hacked the computer prognant called chrome. This story contains the impor-tant themes including love & loss & cosuming Nature Of technology as a whole. The story is collection of 'crime caused by the technology.

This story Gives the idea about people will use the technology for their personal benefits that causes variast crimes. Bob and Jack who are very talented in software & hardware part of the system. They hacked the system of chrome & put the Chromes privacy & security wasted. This shows the illigal, unethical activities of the human in future with the help of Technology. In the story, William Gibson wants to show that people will be lost in technology that will leads to increase in crime in the society.

In the story. It is shown that Bob & Jack both are in Infatuation! with the girl whose name is 'ricky' who was actually the prostitute for the infamous "House of Blue lights". They finished their job with that girl hacking chrome. & Getting all the money from his account. As Both are in love with that virtual Girl. But the Girl flew to hollywood Inorder to fullfill her dreams leavi Both of them. They lost their love. Hence the entire story wants to show about the unrequired love triangle of Jack, Bobby & Ricky & at the end they lost their love which shows lost in love.

This story shows about the ~~the~~ Obession with technology. This shows people in the world are lost in technology. Everything is done based on the technology. Their day to day life is based on technology. They are doing their Job with the help of Technology. which may also produce some unadvantagement on the society too.
